

# 4 TIPS TO GET THE MOST from [MedReps.com](https://www.medreps.com)

You've been using MedReps and are seeing results, but you could be using it smarter. Here are tips to get the most from MedReps:

## Write A KILLER JOB POST.

- Your job post will be visible on the app so it needs to be short but **full of important details**, like salary information.
- Write a ***title*** that medical sales job seekers will find, and ***update the post often***. The post will be archived after 30-days, but you may want to refresh it every week to increase visibility.

## Send TIMELY RESPONSES.

- A 2014 survey from [Jobvite](https://www.jobvite.com) found that 56 percent of applicants receive no feedback from employers.
- If you're not quickly responding to applicants, all your hard work will be wasted. Top medical sales candidates aren't going to sit around waiting for you forever.

## Use the RESUME SEARCH FEATURE.

- Actively search for medical sales professionals in the resume database.
- Use the **resume search** feature to find the medical sales talent you need, or use it alongside other networking sites.
- For example, if you find a promising candidate on LinkedIn, you can search for them on MedReps to find a more detailed resume and the contact information you need.

*"LinkedIn might give current history, but MedReps can often provide us with the contact info that's needed,"* said Lisa McCallister Recruiting Consultant, SPHR, [CONMED](https://www.conmed.com).

## Use FEATURED JOBS.

- Get more job seekers to see your post by creating a **featured job**.
- Your post will be listed at the top of search results on MedReps or included in job alert emails sent to 100,000 medical sales professionals.
